For the attention of: The Quality Manager

Dear Sir/Madam,

Subject: AgustaWestland Limited (AWL) Supplier Approval – Amendment

Please find enclosed an amended Approval Scope, incorporating the changes identified below in your AWL Approval. This supersedes the previous issue which should be destroyed.

The amended Approval Scope defines the type and scope of approval for products and/or services you may supply in furtherance of any AWL Contract.

If an 'HP-' specification is included in the approval, this is for the manufacture of parts for the WAH-64 UK Apache helicopter, in furtherance, either directly or indirectly, of an AWL order. Processes shall only be performed in accordance with that detailed under the DESCRIPTION column. 'HP-' specifications are the property of Boeing/McDonnell Douglas Helicopter Systems (MDHS) and authority for the approval is through procedure WHPS 655.

The changes in the scope are as follows:

- Amend Supplier's Scope of Approval to include :
 - General 00V
 - General 08L
- Amend Supplier's Scope of Approval to delete :
 - Limitation 307

During your contract review process please check that the required work identified on the Purchase Order is covered by your scope of approval as parts manufactured outside of your scope cannot be delivered.

If any of the changes identified are erroneous, please inform your contact in AWL Procurement as a matter of urgency.

Yours faithfully

For AgustaWestland Limited

Mark Rogers
